# KID QUOTES

BY KATE HARPER

Kids say the most amazing things: honest, amusing and altogether entertaining.

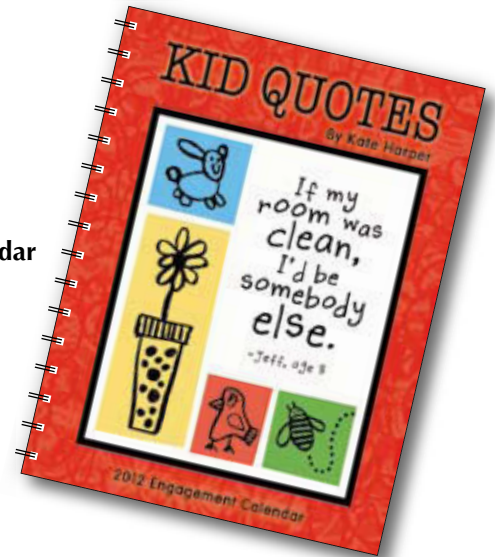

The **Kid Quotes wall calendar** captures this literal yet lighthearted point of view with a year full of quotes from everyday kids. These wise wee ones share the most sincere and silly musings on friendship, love and even marriage.

Artist Kate Harper combines playful words with festive imagery – making even the most proclaimed grown-up feel like a kid again. Harper’s lighthearted calligraphy is paired with childlike crayon masterpieces to create a world of whimsy and wonder. She believes that surrounding ourselves with humor brings us closer to those around us – and the everyday experiences of life become more inspired. And that’s exactly what this calendar will do... keep your heart light and a smile on your face – all year long!

A new card line, **Bright Spots by Kate Harper**, is also available (page 60).
